MAY 2025

Notice: Change in Carton Printing Colours

Dear Valued Customers,

We hope this letter finds you well. We would like to express our sincere appreciation for your continued support and patronage.

We are writing to inform you that, due to changes implemented by our cardboard packaging manufacturer, the printing ink used for the coloured lines on our shipping cartons will be standardised. As a result, the colour scheme of the design lines printed on the boxes will be revised.

Please refer to the details below and the comparison image on the following page for clarification.

Kindly note that this change is solely due to the supplier's ink standardization policy and does not affect the quality, durability, or performance of our products in any way. We appreciate your understanding and continued trust. Should you have any questions or require further clarification, please do not hesitate to contact us.

Yours faithfully,

MAXPULL MACHINERY & ENGINEERING CO., LTD.
